

# Product Information

## Pellets Conveyor GKS 50

### Application Area

The Gerco vacuum conveyors of the **GKS 50** models are used to convey all kinds of plastics pellets. The products are equipped with an alternating current engine and are used for the automatic filling of GERCO dryers with a container volume of up to 110 liters and plastics processing machines. The GERCO pellets conveyors have special pick-up elements to connect the conveyor machine and the dryer. The GKS has a maximum conveying capacity of 50 kg/h.

By attaching the add-on assembly group **Two Components Switch**, an extended application of the conveying unit is possible

### Standard Features:

- Stainless steel material precipitator container
- Electronic controller MKS 04
- Air pressure filter dedusting
- Conveying time and conveying cycle can be adjusted separately
- Suction lance  $\varnothing 40$
- Delivery hose made off PU  $\varnothing 40$  with steel spiral

# Product Information

## Technical Data

### Mechanical Data

Dimensions (ø x H) mm	ø170 x 490
Weight in kg	8
Capacity in liter	2
Conveying performance in kg/h	50

### Electrical Data

Connected load V / Hz	230 V / 50
Power consumption in W	850
Current consumption in A	4,0
Noise level 1 meter distance dB	79

### GKS 50

### Hopper flange

## Accessories

### Two components switch ZKW 11

to convey two materials

### Flashlight

### Adapter container

To mount the conveying unit on the machine
